- Received the "Highest Standards of Excellence" award in Spanish for the 2015-2016 school year
- Distinguished in Spanish
- A Honor Roll recipient
- Four year NCA All-American
- “Pass it Forward” leadership award at NCA 2017
- Spirit Celebration “WOW” award for outstanding performance in school and competitive cheerleading

School Activities/Leadership:

- Vice President for the senior class of 2018
- National Honor Society for three years

- “Hawks Against Destructive Decisions Involving teens” member
- Student council member all four years of high school
- “Health Occupation Students of America” member
- UIL computer Science 2015
- Cheerleading all four years of high school
- Cheerleading co-captain 2017
- “Students with A Goal” member
- “Parent Teacher Student Association” four year member
- Participated in “Youth Spirit Night” for four years
- Member of Alpha Chi Omega Sorority

Community Service:

- I volunteer at Red Oak Health and Rehabilitation Center 2-3 hours a week.
- I tutor kids outside of school.
- I have 100 community service hours in peer coaching.
- I delivered Meals on Wheels with my cheerleading team.
- In 2017, I raised over 200 blankets for the senior citizens at the Red Oak Health and Rehabilitation Center.
- I have delivered holiday meals with my church for six years.
- I am a member of Alpha Chi Omega sorority, where my friends and I raise money for domestic violence awareness and prevention.

Educational History:

Computational Biology & Bioinformatics, The University of Texas at Austin

- Further continued my knowledge in R-Studio, learned how to communicate in R-Markdown, and combined my knowledge in order to create and accomplish tasks for homework, labs, and projects.
- Learned how to combine statistical knowledge within a coding environment, as well as display data with visualizations and probability values.
- Introduced to Python coding, where I learned how to sync R-Studio and Python.

Ecology, The University of Texas at Austin

- Expanded by knowledge on the ecological advancements of the planet, how plants and animals interact, and how humans are a large portion of what happens to Earth as a whole.
- Created and presented a research project studying the affects of climate change on Monarch butterflies.

Clinical Psychology, The University of Texas at Austin

- Learned how to interact with patients and how to effectively diagnose illnesses.
- Expanded my knowledge on the humanistic perspective of psychology.
